25X1 1. ([REDACTED] - JSW) Talked with William Darden, Senate Armed Services Committee, asking about the confirmation hearing for General Carter. Mr. Darden said he had no definite word on this but that he would try to speak to the Chairman as soon as possible and would let us know.

25X1 2. ([REDACTED] - GLC) Mr. Zagorski, in the Liaison Office of the Department of State, called to say the Department had received from Senator Kenneth B. Keating a letter from a constituent who, among other things, referred to a recent newspaper article in which a local real estate man stated that after being unable to obtain the number of CIA employees from the Agency and other sources, was given a figure by officials of the Soviet Embassy. The constituent asked Keating if he had any information on this subject and Zagorski asked for suggested language which State might use in replying to this item. Suggestions were made to Zagorski and he will coordinate the letter before it is released by State.

25X1 11. ( ) - GLC) George Murphy, Joint Committee on Atomic Energy, called and requested assistance concerning a letter which a member of the Committee has received. Murphy said the letter refers to the Intelligence Digest of March 1962. This article apparently indicates that the Digest has for some time had in its possession information to the effect that the Soviets have made advancements in their anti-missile missile program and queries the effectiveness of intelligence on this subject since it has the impression that the U.S. Government was not in possession 25X1 of this same information.

Miss Hamilton indicated that their request was from a constituent from a small town in Missouri and they would appreciate whatever information could be furnished. Advised Miss Hamilton that I would look into the matter for her and be back in touch on Thursday or Friday.
